Table 1: Summary Statistics: NLSY97 Main-Job Sample

Variable	Mean	Standard deviation	Minimum	Maximum	Observations
Panel A: Worker characteristics					
Age (years)	–	–	–	–	–
ASVAB score (standardized)	–	–	–	–	–
Education (years)	–	–	–	–	–
Panel B: Job characteristics					
Weekly hours	–	–	–	–	–
Hourly wage (20XX dollars)	–	–	–	–	–
Job tenure (years)	–	–	–	–	–
Panel C: Sample composition					
Female	–	–	0	1	–
Black	–	–	0	1	–
Hispanic	–	–	0	1	–
Unique respondents					–
Respondent-year observations					–

Notes: The unit of observation is a respondent-year main-job record. Hourly wages are expressed in constant 20XX dollars. ASVAB scores are standardized to have mean zero and standard deviation one within the relevant cohort. Statistics are [weighted/unweighted]; weighted statistics use the NLSY sampling weight. Missing observations are excluded variable by variable.
